

1. K-Love serves me as a resident of my community by keeping me focused on how God wants me to act and be more like Christ. It provides values and direction and comfort and inspiration. It helps me to realize that its not about this world but the eternal; making a difference in people's lives for the better. It helps me to drive safer and constantly pray for those drivers who, for example, tail gate or cut off other people. It helps me to choose to live a Godly life and display the fruits of love, patience, kindness, and self control, etc.

2. the effect on the local community if K-Love were to be displaced by an LPFM broadcaster providing other programming would be devastating. I believe that the world would continue in its valueless decline. The world today is the way it is because there is not enough positive influences and people willing to stand up and tell their children that there is a right and a wrong. If I wanted to listen to other stations, that should be my decision. It should not be because my radio station of choice is not available. I choose to support K-Love. K-love is a light onto the world. Please do not extinguish it.

3. I believe the service by K-love is in the public interest because this country was founded on religious freedoms and K-love is providing the ultimate freedom. The freedom to choose Christ. There are thousands of people dying in other countries because they profess the love of Christ. We, fortunately, will not be called to die for our faith. K-love brings the message and the hope that is in Christ. It is in the best interests of the public to have a choice between secular and Christian music. It is a healthy, family friendly station which I don't have to worry about my daughter listening to and picking up bad language, among other things.
